

Project Manager - Roadway

Atlanta Metro (Duluth, GA)

Founded in 1954, Keck + Wood, Inc. is a growing and dynamic employee-owned consulting firm with four offices in Georgia and South Carolina. Our 60+ employees serve Community Development, Transportation and Utility clients across the southeast by providing quality engineering, planning, landscape architecture, and land surveying.

Today, Keck & Wood offers great opportunities for individuals interested in Engineering, Landscape Architecture, Survey or Planning to join our team and make a difference.

Collaboration By Design is not just a tagline, its the foundation of how Keck + Wood serves clients, improves communities, and strengthens its employees.

Challenging and rewarding opportunities are here....are you ready?

As the foremost representative of Keck & Wood to a client, Project Managers are on the leading edge of management, relationship building and mentoring to achieve consistent project successes. The roadway project manager will be responsible for developing GDOT and local government projects. The selected candidate will proactively manage several projects of varying types and develop client relationships. This position will work under the direction of either a Senior Project Manager or Roadway Director. The right candidate will have the skills and ability to address the following:

Project Management

- Manage scope, schedule, budget and client expectations
- Coordinate with clients, consultants, and design staff as needed
- Prepare monthly invoicing, internal & external progress reports, etc.
- Build and maintain sufficient work backlog for staff utilization
- Act as senior engineer on multiple projects

Relationship Development:

- Attend conferences & actively participate in professional organizations
- Connect with clients through consistent visits and touchpoints
- Prepare monthly progress reports

Mentoring:

- Perform annual reviews for assigned staff, set growth goals & objectives
- Mentor (or providing mentoring) for junior-level staff
- Keep current & provide team training on design trends, regulations, codes, etc.

This position can strengthen your career by growing your experience with complex projects with a growth path to Senior Project Manager and/or Engineer.

Our goal is to make you successful in work...and in life!

Keck & Wood provides a culture for you to thrive, instead of just collecting a paycheck. From team outings to company events, we provide opportunities for you to connect with others in the company on both a professional and personal level. Our flex schedule attitude helps you achieve a suitable work-life balance to grow your career, without having to give up your life to do it.

Supporting our competitive pay, our compensation packages can also include 401 (k) contribution match, spot bonuses, performance-based incentive pay, and our Employee Stock Ownership Plan (ESOP). Benefits can provide peace of mind to focus on your career, so our packages typically include medical, dental, vision, short and long-term disability insurance, paid holidays, paid time off for sick & vacation leave, paid time off for eligible volunteer service, and more.

Visit our website for a full list of compensation opportunities and benefit options to grow your career and build your life.

The right skills....for your success!

We're looking for candidates with the following qualifications:

- BS Civil Engineering degree, or equivalent
- Five to ten years experience as project manager or senior engineer
- Georgia PE certification, required or immediate reciprocity ability
- Experience with GDOT and local design requirements
- Excellent technical skills and ability to mentor
- Strong written & verbal communication skills; ability to thrive on a team
- Ability to embody our brand by treating clients and employees with courtesy and respect

Work is primarily performed in an office environment with occasional travel to project sites for construction review and contract administration. Fieldwork involves exposure to weather, traffic, and loud noise and requires extensive walking over uneven surfaces and various terrains.

Keck & Wood prides itself on providing unsurpassed service and care as Trusted Advisors to clients, and the project manager for roadway position is perfect for someone who wants to make a lasting difference through transportation design projects.
